

Easiteach 3.6 upgrade installation instructions

This version will let you convert Easiteach 3.4 and 3.5 (Windows) files so they can be opened by Easiteach Next Generation Windows.

To download and install the Easiteach 3.6 upgrade, follow these instructions:

1. Download the Easiteach_3.6_Upgrade.zip file
2. After the file is downloaded to your PC, double-click the .zip file to open the Easiteach_3.6_Upgrade folder
3. Open the folder and double-click on setup.exe

Your version of Easiteach will now be updated to version 3.6

-To save files in 3.6 in a format that Easiteach Next Generation can open, go to **File** and choose **Save As** and select **Interactive Whiteboard Format (*.iwb)**

-To open .iwb files in Easiteach Next Generation choose **Open from the Main Menu or the "E" menu** and select the appropriate file.

NOTE: When Easiteach 3.5 files are converted to .iwb format you may lose some graphics and functionality in the converted file. However, all the text from the original file will be converted.
