

# Math Framework

## Combines comprehensive interactive curriculum with a full-featured content management system

**RM Math Framework** combines the extensive, standards-aligned curriculum of **RM Math Player** with the power of RM Learning Platform, a featured-rich, user-friendly content management system for K-12 schools.

At its base core, **RM Math Framework** enables schools and districts to elevate math instruction to a whole new level by providing over 4,000 interactive pre-made lessons and activities that engage and challenge student thinking while exposing them to new ideas and empowering them to be independent thinkers.

With the addition of **RM Learning Platform**, teachers can get the most out of their interactive technology. Easy-to-use planning tools enable teachers to create highly differentiated curricula and to share best practices and exemplar courses and resources with colleagues. The Virtual Learning Environment helps teachers quickly create their own innovative and engaging lessons and tag them to state standards. Teachers can search for content using keywords or state standards. Built-in testing tools and an electronic gradebook facilitate ongoing student assessment. **RM Learning Platform** provides exciting ways of communicating to allow for student home access and teacher collaboration.

**RM Math Framework** is available as a site license separately for middle school and high school. or at a district license.

### Features and Benefits:

#### All features of RM Math Player, including...

- Over 4,000 interactive lessons and activities provides enough variety to support differentiated learning
- Aligned to national and state standards to facilitate integration into curriculum
- Comprehensive curriculum for Grades 6, 7, 8, Algebra I, Algebra II, Geometry, Pre-Calculus, and Calculus

Virtual manipulatives help make he abstract more meaningful, increase motivation and raise student achievement.

Why RM?  
"Test items on which 6th-grade students scored above the state average almost doubled."

Bill Miganowicz, Teacher, Narragansett Regional School District, Baldwinville, MA
