

# Math Player

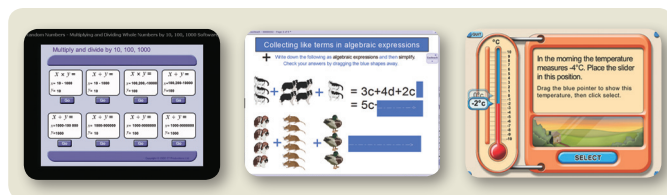

Grades  
6-12

RM Math Player provides teachers with interactive, research-based math content aligned to both NCTM and state curriculum standards. Using any interactive whiteboard or slate, RM Math Player puts the teacher at the center of the instructional process by facilitating whole-class lessons with thousands of interactive activities.

RM Math Player can greatly increase student motivation, engagement, understanding and retention of complex math concepts. The provided curriculum resources and the interactive teacher tools are very visual and help teachers to deliver lessons which are exciting, fast-paced, and address all student learning styles. By targeting the three main learning styles – Auditory, Visual, and Kinesthetic – RM Math Player improves student performance and test scores.

With over 4,000 interactive lessons and activities and printable follow-up assignments for students to practice what they have learned, RM Math Player provides a wide breadth of content styles to support differentiated instruction. Through partnerships with award-winning Geometer's Sketchpad and Wolfram's Mathematica, a dynamic modeling, simulation and visualization software program, RM Math Player presents different styles of content to engage all learners.

RM Math Player Middle School Edition provides comprehensive curriculum for Grades 6, 7, and 8. The High School Edition covers the entire high school math curriculum (Algebra I, Geometry, Algebra II, Pre-Calculus, and Calculus) and includes activities from the award-winning programs Geometer's Sketchpad and Wolfram's Mathematica.

## Features and Benefits:

- Over 4,000 interactive lessons and activities provides enough variety to support differentiated learning
- Aligned to national and state standards to facilitate integration into curriculum
- Comprehensive curriculum for Grades 6, 7, 8, Algebra I, Algebra II, Geometry, Pre-Calculus, and Calculus
- Diverse content using animations, pre-made lessons, interactive games, Wolfram's Mathematica, Geometer's Sketchpad and RM Easiteach to stimulate and engage all learners
- Comprehensive set of easy-to-use math tools include graphs, number lines, fraction tools and more
- Includes 15-computer license of Geometer's Sketchpad
- Compatible with any interactive whiteboards or wireless slates
